

Individual Weekly Report

Name: Diego Lanz

Team: good AIM

Date: 2/10/2025

Current Status

1. What did you **personally** work on this past week?

Task	Status	Time Spent
Pilot Studies Analysis	Completed	30mins-1hour
Helped begin setup of basic code base on the team git repository	Completed	1-2hrs
Finalized design ideas for landing page and general page layout.	Completed	15 mins

Include **screenshots/graphics** to illustrate what you did this past week:

2. What problems did you run into? What is your plan for them?

I ran into some issues with my workload and being able to manage everything.

3. What is the current overall project status from your perspective?

Currently, we are finalizing the planning stage and slowly beginning to implement the code and build everything from the ground up.

4. How is your team functioning from your perspective?

We are functioning pretty well, I believe that we all work pretty good as a team and that we can get stuff done together.

5. What new ideas did you have or skills did you develop this week?

I developed some more knowledge on neon and how it works to connect to azure and since we are using it as our database platform, I should become very familiar with it.

6. Who was your most awesome team member this week and why?

Our most awesome team member this week was Simone Kang, she made sure that the database hosting platform was working properly and that the code base got properly deployed. She is doing a great job of making sure everything works well from the start.

Plans for Next Week

What are you going to work on next week?

This next week, we are beginning sprint 1 and we have already split up the tasks for it. I will be working on the student/user view forms module part of the website. Additionally, I will help Simone with the login page and google o-auth if it is needed. Also, I am working on the staff view dashboard.
